**Dear Business-Partner,**

**For more than 30 years here at FBF bed&more** our hotel textiles business has been driven by a successful combination of respect for tradition and innovative operations. As a partner of long standing to the international industry, first class service, a high level of quality and attractive prices will continue to be our top priorities in the future.

**The prices on the commodities markets world-wide,** in particular for home textiles, have unfortunately followed a continuous upward trend for quite some time not and will remain uncertain for at least a while as a result of declining areas under cultivation, increasing demand for raw materials in developing countries and crop losses due to the weather.

**So that we can continue to offer you, our valued customer,** fair and competitive prices, we will complement our annual catalogue with a separate price list for all our products. This list will be updated regularly to reflect price developments in the market and will be available for download from our website under [www.fbf-bedandmore.de/download](http://www.fbf-bedandmore.de/download).
