SOFA BEDS – INCREASED CAPACITY FOR YOUR HOLIDAY FLATS OR HOTEL ROOMS

Whether it be for a holiday flat by the Baltic Sea, a family room in the mountains or a hotel room in the city – our sofa beds offer you a flexible response whenever extra sleeping accommodation is needed. The sofas are very suitable not only for hotels and apartments in holiday destinations but also for hotels in the city. Particularly where space is limited, this is an easy way to accommodate extra guests.

Our sofa beds offer compelling comfort in both sitting and reclining positions. In addition, they are very flexible in terms of possible

usage, e.g., as an extra bed for children or guests, as a daybed for reading or relaxing or a proper bed where space is limited. If you need additional storage space, the Ottoman for the corner sofa RIVA offers plenty of room for extra bedding.

Due to their compactness, our comfortable sofas can be used flexibly as feel-good oases for your guests. Which of our sofa beds best suits your particular room design? You will find relevant information and data on the following pages.
