about us

# The hotel bed ...

is the statement piece in every hotel room. In nearly every high quality hotel room, the bed plays a central role as a place of rest. Therefore, it should not only be outstanding in terms of its first-class appearance and comfort, but also in terms of the best possible comfort for different types of sleep. Each guest should be able to enjoy an all-round restful night's sleep - no matter what their body type may be. As you know: happy guests will recommend you to others and will be happy to come back.

FBF beds impress with their beautiful, timeless design and are of particularly high quality and solid workmanship. You can design the beds according to the needs of your guests together with your room concept using our configurator.

# beds & accessories

- 08 box spring beds
- 18 hotel bed
- 22 foot sets & connecting elements
- 31 rollaway bed
- 32 slatted frames

## Find an individual box spring bed for your hotel in five easy steps!

Configure your box spring bed quick and easy online!

#### **Mistral box spring bed** with integrated barrel-form pocket spring unit

Maximum flexibility thanks to an integrated barrel-form pocket spring unit with a 3Mesh fabric cover for optimal ventilation. Constructed with a sturdy, solid-wooden frame.

- bed height without feet: approx. 19 cm
- core: barrel-form pocket spring unit
- upholstery fabrics: individually configurable
- available sizes: 80x200 cm 200x200 cm (Custom sizes available on request)

#### **Savoy box spring bed** with integrated bonell inner spring unit

The classic among the box spring beds and favoured by many hoteliers. The support frame with 4 cross struts is made of solid spruce wood. High quality bonell inner spring unit with Thermofilz ticking.

- bed height without feet: approx. 23 cm
- core: bonell inner spring unit
- upholstery fabrics: individually configurable
- available sizes: 80x200 cm 200x200 cm (Custom sizes available on request)

#### **plaza hotel bed** the attractive entry-level variant

An elegant, robust hotel bed with a high load-bearing capacity thanks to a solid spruce support frame and cross-bracing. Elaborately finished with a quilted ticking mirror.

- bed height without feet: approx. 16 cm
- solid chipboard, with perforations for optimum ventilation
- upholstery fabrics: individually configurable
- available sizes: 80x200 cm 200x200 cm (Custom sizes available on request)

Configure your box spring bed for your guests in five easy steps:

- (1) size of the bed
- 2 fabric & colour
- 3 mattress & topper
- (4) headboard
- 5 feet & rollers

Configure here:

Individual designs, from timeless to extravagant. We are the leading manufacturer in the hotel industry for box spring beds, and you can choose between numerous combination options. Whether it's the choice of fabric, the size of the bed, the headboard or our wide range of mattresses.

For additional comfort or to achieve a softer sleep experience, you also have the option of selecting a topper. Stand out from the crowd with our hotel products.

# Mistral box spring bed

Due to an integrated **barrel-form pocket spring unit**, the mistral box spring bed offers maximum flexibility and the sleeping comfort of the luxury class. The overlying 3D-mesh fabric provides for optimal ventilation and pointwise elasticity.

In combination with a barrel-form pocket spring mattress and a suitable mattress topper, this bed system offers the best possible conditions for restful night sleep.

#### **ADVANTAGES**

- bed height without feet: approx. 19 cm
- core: barrel-form pocket spring unit
- upholstery fabrics: individually configurable
- available sizes: 80x200 cm 200x200 cm (Custom sizes available on request)

8 YEAR WARRANTY

against breakage on the inner spring core and supporting frame

# Sets of feet and connectors

An essential component of our comfortable beds are the connectors and feet. Together, these components play an important role in the stability and appearance of the bed. Connectors ensure that the bed boxes of the box spring beds are securely and firmly connected to each other.

The feet give the bed an elegant and stylish appearance. They are also available in different styles, materials and heights to complement individual tastes and hotel room furnishings.

#### INFO

If you have any questions about our sets of feet, we will be happy to help. All sets are also available without casters.

Please feel free to call us: +49 9161 660-660

#### \*TIP (SEE TABLE)

The "Premium" set of feet can be painted in all common colours according to your specifications, for a small surcharge and from an order of 40 pieces. Just contact us!

# Our all-round carefree service for you

In addition to our products, we at FBF bed&more offer a comprehensive range of services to provide you with a well-rounded hotel experience. We aim to provide you with the best possible support and make your everyday life in the hotel industry as easy as possible.

We offer attractive leasing and lease-purchase options for flexible financing of your investments. This way, you have the opportunity to integrate our high quality products into your hotel without putting too much strain on your liquidity. In order to check the profitability of your decisions, we offer you profitability calculations. Let our experienced experts analyse your needs and help you determine the most cost-effective options for your hotel beds and mattresses.

We also offer a high level of flexibility and reliability in transport and deliveries. We ensure that your orders arrive safely and on time. Customised products are also our speciality. Our sales team is ready to help you fulfil your individual wishes and requirements.

# A hotel mattress ...

must, first and foremost, suit your hotel and your guests. Despite differing body shapes and sizes, it should offer them optimal support and adaptation to individual body zones during sleep and so contribute to rest and relaxation. We achieve this through the use of best-quality materials.

Every year we manufacture over 200 different models in almost every size to meet specific customer requirements. We would be happy to help you to find the right concept for the well-being of your sleeping guests. Because, of course, contented guests come back again and recommend your hotel to others.

Many aspects speak for the outstanding quality of the mattresses from FBF bed&more:

- Optimally adapted to the demands of the hotel-industry
- Carefully selected materials guarantee robustness and long service life, so that we are able to offer a eight-year warranty against breakage for the inner spring unit
- Very considerable flexibility in production due to having our own manufacturing facilities

# mattresses & hygiene

- 38 mattresses
- 54 mattress toppers and overlays
- 62 mattress protection & hygiene covers

# Barrel-form pocket spring mattresses

The barrel-form pocket spring mattress (PS-mattresses) is considered to be the ultimate inner spring mattress.

It consists of many hundreds of springs, each packed individually into pockets.

Due to the high pointwise elasticity and the use of different zones, optimal support and adaptation to body shape is achieved for the sleeping guest.

A PS-mattress is only conditionally suitable for use on adjustable bases/slatted frames.

#### ADVANTAGES

- High point-wise elasticity
- Optimal body support
- Zoned variants available for improved body adaptation
- Partially available with washable covers a plus for allergy sufferers
- Very good microclimate regulation for optimal sleeping conditions
- Long service life and shape retention

**8 YEARS WARRANTY** against breakage on the inner spring core

# Bonell inner spring mattresses

Bonell inner spring mattresses are characterized by their low weight, their distributed elasticity and their long service life in hotel use and on this account are often used in the hotel industry.

A Bonell inner spring mattress is only conditionally suitable for use on adjustable bases/slatted frames.

#### **ADVANTAGES**

- Lightweight and simple handling
- Good air circulation and moisture transport provide an optimal sleeping microclimate
- Well-suited for use on simple slatted frames without adjustment
- Long service life and shape retention
- An economical alternative to pocket spring mattresses

STAGES HOTEL Prague, a Tribute Portfolio Hotel, Prague, Czech Republic

# **Cold foam mattresses**

Our foam mattresses are made from high quality cold foam. This foam is characterized above all by its open-pored structure and its pointwise elasticity.

Our cold foam mattresses are ideally suitable for slatted frames and well-ventilated bases. For our hotel beds and box spring beds, we recommend our Bonell or PS-mattresses.

#### **ADVANTAGES**

- High pointwise elasticity
- Zoned variants available for improved body adaptation
- Anti-allergenic through washable covers
- Very well-suited to adjustable bases/slatted frames
- Balanced relationship between service life and form retention

# Mattress toppers

Our mattress toppers offer your hotel and your guests an additional luxury. They increase comfort when lying, improve hygiene and visually highlight the bed in your hotel room.

#### ADVANTAGES

- Protection for the mattress
- Covers washable
- Can improve comfort when lying
- Can modify the firmness of the mattress
- Single, continuous bed surface when spread over two mattresses

# **Topper overview**

# **Toppers and overlays:**

a significant increase in comfort for your guest

## **Cold foam topper**

Cold foam excels through its high pointwise elasticity, its open-pored structure and the excellent sleeping comfort it offers. Thus, we achieve heavenly comfort for your guests through ideal pressure distribution and perfect back support with optimal body adaptation.

# **ADVANTAGES**

- Very high pointwise elasticity and body support
- Hygenic sleeping conditions through good air circulation and washable covers
- Long service life
- Very good thermal insulation
- Lightweight, simple handling and easy transport

# Hotel bed hygiene

Hygienic standards and professional care: We care about the well-being of your guests in all respects. A mattress protector adds a hygienic advantage to their comfort. Regardless of whether it is a full protection or an overlay, your mattress is safely protected from dirt and moisture. Simple handling and washability are another advantage.

Discover many easy-care products in our range and equip your home with the highest hygiene standards.

#### ADVANTAGES

- Optimal protection for mattresses
- Breathable
- Hygienic freshness due to washability

#### TIP

Our Safe Care and Care Plus products is worth **10 Points** towards your hotel classification according to the **DEHOGA** criteria checklist.

# Optimum sleeping comfort for your guests

Above all, a hotel mattress must suit your hotel and your guests. Regardless of the different body shapes and sizes of your guests, it is crucial that it provides optimum support and relief for the individual body zones to enable restful sleep. We achieve exactly that goal by using high quality materials and tailor-made solutions.

In your hotel, our headboards create a first-class ambience and you can choose from a total of five different models. Installation is simple and uncomplicated thanks to the plug-in rails on the bed. In addition, we also offer models for self-assembly with preparation for wall mounting.

Because we understand that every hotel has individual requirements, be it in terms of budget or room concept. We therefore enable you to put together the highlight of the room according to your wishes, in order to ensure the best sleeping comfort for your guests. Let our competent team advise you on the right products and materials to ensure your guests have an unforgettable stay.

# Headboards ...

create a first-class atmosphere in your hotel. To this end, we offer a total of five different models. Mounting is simple and is made by way of a plug-in mounting rail on the bed; some models are delivered prepared for (do-it-yourself) wall-mounting. Other models and custom heights are available on request. High-quality bed plaids (see page 79) are a further optical enhancement.)

### **First-class sleep**

Optimum sleeping comfort for your guests - our blankets offer warmth, moisture regulation and ensure restful nights. At FBF bed&more you can choose from two types of filling: Synthetic fibre and feather/down. This allows you to adapt the duvets individually to the needs of your guests.

The synthetic fibre duvets are easy to care for and allergy-friendly. They provide excellent thermal insulation and are particularly light. Perfect for giving your guests a comfortable sleeping experience that will accompany them through the night. We offer blankets with a high-quality feather/down filling for guests who prefer a luxurious sleeping experience. These natural materials ensure optimal moisture regulation and a pleasant sleeping climate.

The FBF bed&more hotel bed linen excels with its durability and hard-wearing qualities. The blankets retain their shape and quality even after numerous washes, so you can offer your guests a fresh and appealing ambience time and time again. Our high-quality blankets and bed linen collections will delight your guests and make them feel right at home.

# daybeds & seating ...

space-saving, functional and comfortable. Regardless of whether in a holiday flat at the seaside, in a family room in the mountains or in a hotel room in the city - with our sofa beds you can always provide a flexible response to an additional need for sleeping space. Our sofas are ideally suited for hotels and flats in holiday regions as well as for city hotels. Especially when space is limited, this is an easy way to accommodate additional guests.

Our sofa beds are comfortable and convincing in every sitting and lying position. Beyond that, they are extremely versatile, e.g. as an extra bed for children and guests, as a daybed for reading and relaxing or as a full bed in smaller rooms.

Thanks to their compactness, our cosy sofa beds can be used flexibly and are feel-good places for your guests. Which one of our sofa beds suits your space? You will find information and data on the following pages.

# daybeds & seating

- 86 Riva sofa bed
- 96 Meran convertible sofa
- 100 Garda armchair (not convertible to a bed)
- 102 seats & storage

# Riva sofa bed

#### ADVANTAGES

- 1 2 additional sleeping places, depending on width
- Unfolded and folded in just a few seconds
- Wide fabric selection
- Covers can be removed with Velcro or zip fasteners
- Robust mechanism
- Ideal for small spaces

#### INFO

Top-Highlight for your Housekeeping: For a modest surcharge, we can equip your Riva sofa bed or chair bed with an integrated, easy-to-operate lifting system, which allows the sofa/chair to be rolled away easily in two steps.

# More than just a sofa - functional, comfortable, modern

The sofa blends in perfectly with your rooms. Well-engineered and equipped with the so-called "Rapid System", it can be folded and unfolded in a matter of seconds with little effort.

A high quality, 14 cm thick cold foam mattress on a solid and durable base ensures a restful night's sleep for your guests.

The sofa can be ordered in different widths depending on the size of the room. RIVA is also available as an armchair for small rooms or as a small seat.

Numerous combination options are available thanks to our large selection of cover fabrics. These can be removed and cleaned using Velcro tape if they become dirty or damaged.

Illustrations and description of the armrests can be found on page 101.

All cover fabrics on pages 182 to 191.

**TRANSFORMED EASILY!**

#### SIZE AND DIMENSIONS

plus 2x armrest thickness

plus 2x armrest thickness

Information and illustrations of the armrests can be found on page 101.

# Riva sofa bed with corner with sleep function

#### ADVANTAGES

- 1-2 additional sleeping accommodations, depending on the width
- High sleeping comfort
- Unfolds and folds in a few seconds
- Large choice of fabrics
- Covers can be removed with Velcro or zip fasteners
- Robust mechanism
- Generous storage space
- Individual seating landscape can be created using modules

# More than just a sofa – functional, comfortable, modern

The comfortable RIVA sofa bed with corner seat offers a double benefit for your guests: During the day it offers a cosy place to sit and at night a comfortable place to sleep. The practically invisible bed function allows the sofa bed to be easily converted into a fully-fledged bed in just a few simple steps and impresses with the perfect combination of functionality and design.

Assemble the sofa individually depending on the space and intended use and choose from different versions.

The large selection of cover fabrics allows for a wide range of design options and perfect adaptation to your hotel ambience.

Note that the total width of the sofa depends on the selected armrests. You will find illustrations and descriptions of the armrests on page 101.

All cover fabrics on pages 182 to 191.

# Meran sofa-bunk bed

#### ADVANTAGES

- Space-saving solution
- Two additional sleeping accommodations
- Great sleeping comfort
- Easy and quick handling
- Large choice of fabrics
- Covers can be removed with velcro or zip fastener
- Robust mechanism with safety lock

#### VIDEO SET-UP GUIDE

We show you in a short video how to unfold and retract the Meran sofa-bunk bed:

# More than just a sofa - space-saving, functional, comfortable

Our Meran sofa-bunk bed, specially developed for hotel use, is a robust yet stylish sofa that allows you to create two full-size sleeping places in a small space in no time. Our large selection of cover fabrics, matching our box spring beds, offers you numerous combination options.

The sofa bed can be transformed into a comfortable double bunk bed in a couple of minutes thanks to a unique transformation system.

The two high-quality 14 cm thick cold foam mattresses mounted on a solid and durable base ensure a restful night's sleep for your guests.

All cover fabrics on pages 182 to 191.

| Price in € from            | 647,00   |

# Configuration - completely customised

#### CHOOSE THE RIGHT FABRIC ...

We offer a wide range of cover fabrics in different textures and colours for our sofa modules. You can find the colour overview on pages 182 to 191. You are welcome to request original fabric samples in order to match the right colour.

The cover fabrics can be easily removed and cleaned using Velcro or zip fasteners if they get dirty or damaged.

#### ... AND THE MATCHING ARMRESTS

According to your space and appearance, you can choose from up to four different armrests to create your individual sofa bed.

The RIVA sofa bed and corner sofa are available with armrests A, B, C and D.

The Garda armchair is available with armrests B and C.

#### Armrest thicknesses:

A: approx. 16 c, B: approx. 10 cm, C: approx. 4 cm, D: approx. 3,5 cm

# Synthetic pillow

# easy to clean and durable

#### ADVANTAGES

- Easy to care for and washable for even more hygiene (please always follow the product label). We recommend a mild detergent, but no fabric softener.
- The cushions are allergy friendly and partially washable up to 95°C (please always observe the label on the product).
- Durability due to high quality materials, high cost-effectiveness

#### TIP

A selection of different pillows will secure you **4 points** from the **DEHOGA criteria catalogue** for your hotel classification.

# Synthetic duvet

# easy-care and economical

# ADVANTAGES

- Easy-care and washable for even more hygiene (please always observe the label on the product). We recommend a mild detergent, but no fabric softener.
- The blankets are allergy friendly and partially washable up to 60°C (please always observe the label on the product).
- Longevity thanks to high-quality materials and high cost-effectiveness.

# TIP

With a selection of different pillows **4 points** from the **DEHOGA criteria catalogue** for your hotel classification.

## TIP

With a selection of different pillows you can secure **4 points** from the **DEHOGA criteria catalogue** for your hotel classification.

# Bed linen ...

Easy-care, high quality, versatile and customisable – the FBF bed linen programme is designed entirely to meet the wishes of the hotel industry. Let our high quality, our extensive range of fabrics and our innovative design suggestions convince you.

Further information in the online shop:

# Bed linen

- 136 bed linen
- 144 bed sheets
- 150 articles for children
- 156 sleeping & fleece blankets

# **Bed linen**

Key to a pleasant stay for your guests are the bed linen. A restful night's sleep is very important, and comfortable and cosy bed linen can contribute immensly.

High quality bed linen not only offers luxurious sleeping comfort, but also hygiene, durability and longevity. That's why we place great value on the use of high-quality materials when selecting bed linen.

### ADVANTAGES

- optimal cost-effectiveness
- reduced weight and volume minimize costs for frequent washing
- extremely hard-wearing and durable
- exceptionally pleasant on the skin
- excellent washing and ironing characteristics
- it can safely be washed at 95°C (use a corresponding washing powder for coloured fabrics)

### **Blankets**

Blankets are an added bonus for your hotel and perfect for mild or cool summer evenings. It creates a cosy atmosphere so that your guests can switch off from everyday life. The cosy texture and comfortable feel of the blankets help guests feel at home.

What is important to us is that the blankets are high-quality and durable, meaning they will last for a long time. And at the same time are easy to care for.

### ADVANTAGES

- Warmth and comfort
- Versatile use
- Easy to care for
- Durable and high quality
- Comfortable

# Terryproducts ...

FBF's terry product lines allow you to transform your bathrooms and wellness areas into small oases of relaxed well-being. Discover exclusive hand towels, bath towels and sauna towels in twisted and single yarn terry as well as bathrobes for the perfect spa experience.

Further information in the online shop:

# towelling products

- 162 twisted terry
- 166 single yarn terry
- 174 bathrobes
- 179 accessories

### **Terry products**

Our high quality towels, bathrobes and sauna towels, which offer a soft, fluffy texture and excellent absorbency, provide your guests with a sense of relaxation and well-being. Terry products help to create a consistent brand image for your hotel and wellness facility. We offer a wide range of different qualities and colours to suit all needs.

### CARE FOR TOWELLING CORRECTLY

- Due to the production process, terry towelling has shrinkage values of approx. 5 - 10 %, depending on the initial quality and care, therefore we strongly recommend washing and drying new goods at low temperatures in a gentle cycle before use.
- Never overload the washing machine when washing terry towelling on a daily basis - this will lead to premature abrasion at the edges and pulled threads in the pile.
- Overloading in the tumble dryer will prevent the fabric from unfolding properly, resulting in a tough towel.

# High quality towelling for your hotel: Luxury for your guests

When a hotel room is equipped with high quality towelling, it offers a multitude of advantages that benefit both the guests and the hoteliers. Below are some reasons why a hotelier should consider using high quality towelling products:

- Excellent guest experience: high-quality terry towelling adds a touch of luxury to the hotel room and offers guests an exceptional feel-good experience.
- Durability: high quality towelling is made of carefully selected materials that are not only comfortable on the skin, but also durable and long lasting.
- Positive guest reviews: using high quality terry towelling products helps guests to feel completely pampered.
- Image and competitive advantage: a hotel that relies on high quality terry products conveys an image of high service quality and a well thoughtout guest experience.

At FBF bed&more, we understand that choosing the right terry products for your hotel is an important decision. Our dedicated team is always on hand to help and advise you on the right products for your individual needs and budget.

# Terry TOWELLING Wellness

Discover a diverse selection of exquisite bathrobes and generous sauna towels that will make your guests feel comfortable and relaxed. Our carefully crafted terry towelling products represent the highest quality and durability to provide your guests with an unforgettable wellness experience.

### HOW TO CARE OF TERRY TOWELLING

- Due to the production process, terry towelling has shrinkage values of approx. 5 - 10 %, depending on the initial quality and care, so we strongly recommend washing and drying new goods at low temperatures in a gentle cycle before use.
- If you wash terry towelling every day, never overload the washing machine - this will lead to premature abrasion at the edges and pulled threads in the pile.
- In the tumble dryer, overloading will not allow the fabric to unfold properly, resulting in a hard towel

# Fabrics ...

should not only be aesthetically pleasing, but - especially in the hotel industry also durable, easy to clean and long-lasting. The choice of the right cover fabrics depends on various factors, such as design and budget. Altogether, upholstery and decorative fabrics are the decisive elements in interior design and can help to create a certain atmosphere and increase the comfort in the room so that your guest feels right at home.

## Terms of the FBF world ...

that you will come across that characterise our everyday language. From steel strip frames to filling force - we know that these terms can sometimes seem complex. That's why we've put together a comprehensive glossary for you that explains these terms easily.

But it's not just these two terms that you'll find in the glossary. In addition, we explain other key concepts and technical details that distinguish our products. Whether it's about the material properties of our terry towelling or the special features of our mattresses - our glossary provides you with a clear and understandable overview.

## Glossary

#### Legend

## Wa

#### Wash symbol

The wash symbols will show you at a glance at how many degrees the product or e.g. the cover can be washed at. Please always refer to the label on the product.

#### Suitable for tumble dryer

This product can be tumble dried. Please note type of drying per label.

#### Removable cover

This cover is removable and washable.

#### Impervious to liquids

This product is impermeable to liquids thanks to its polyurethane coating, but it is still breathable.

### (0)

KALT-

#### Flame retardant (FR)

This material/product is equipped with flame-retardant properties.

#### Cold foam

The product contains cold foam.

#### 8-year guarantee

on various product parts when used properly

#### Velcro/zipper

The product is equipped with Velcro or zip, e.g. for easy removal of the cover.

#### Feather/down filling

Product is filled with feathers and/or down.

## Ð

## Synthetic filling

The product is filled with a synthetic fibre.

#### Filling special

The product is filled with grains, flowers or cedar.

#### Suitable for allergies

The product can be used by allergy sufferers without any problems.

#### Sustainable

The product consists (completely or partially) of recycled materials.

#### **Stain protection**

The fabric has a special "stain-proof" finish so that most stains can be easily removed with water.

#### **Premium product**

This product is the highest quality product in its category.

#### **Best-selling product**

This product is one of our bestsellers and unbeatable in price/performance.

#### Sustainable product

This product consists (completely or partially) of recycled materials.

#### Fabrics

Refers to the chapter "Fabrics".

#### Glossary

Reference to this chapter. Explanations, symbols and technical terms can be found here.

### SEAQUAL Seaqual Initiative

Products made with seaqual yarn. For more information on Seaqual, see page 209.

#### ESTELLA<sup>®</sup> Estella Ateliers

Articles from our sister company Estella Ateliers, which stands for high-quality products in the home textiles sector.

glossary 195

#### **Mattress properties**

#### 7-zones

7-zone mattresses offer additional comfort and an improved ergonomic sleeping position. The three upper zones are designed for the head, shoulders and torso, the three lower zones for the thighs, lower legs and feet. The middle zone supports the pelvis and hips.

#### **Steel strip frame**

The steel strip frame is an all-round reinforcement of the spring core. We build it in the middle of the inner spring core or on the upper and lower edges of the spring core. The steel strip frame stabilises the inner spring core in the zones of the mattress that are subject to high stress. It provides for increased edge fit strength and thus increases the mattress's lifespan.

#### Bonell innerspring mattresses (BFK)

Bonell spring core mattresses (BFKmattresses) are characterised by their low weight, their surface elasticity and their durability in hotel use and are therefore often used in the hotel industry. A Bonell spring core mattress is only conditionally suitable for adjustable slatted frames and under-beds.

#### Flame retardant (FR)

We also produce selected models in accordance with international standards for fire safety. In accordance with the requirements of S 7177:2008, we offer a wide range of box spring beds, mattresses and toppers in the Low Hazard and Medium Hazard categories, which meet all requirements in terms of fire safety. In addition, our product range includes models tested and certified according to the highest Italian fire safety standard 1.IM (UNO I EMME) and the fire standard (MSC.307(88), FTP Code 2010, Annex 1, Part 9) for marine mattresses.

#### Cold foam topper

Cold foam stands out due to its high point elasticity, its open-pored structure and its very good sleeping properties. This allows us to achieve a heavenly sleeping experience for your guests through ideal pressure distribution and perfect back support with optimal body adaptation.

#### **Cold foam mattresses**

Our foam mattresses are made of high-quality cold foam. The foam is mainly characterised by its openpored structure and its point elasticity. Our cold foam mattresses are ideal for slatted frames or well-ventilated under-beds. For our hotel and box spring beds we recommend our Bonell or PS mattresses.

## Barrel pocket spring mattress (PS)

The barrel pocket spring mattress (PS-mattress) is the highest quality spring mattress. It is made up of hundreds of springs that are individually packed in pockets. Due to the high point elasticity and different zones, optimal support and relief of the entire body is achieved for the sleeping guest. A PS-mattress is only conditionally suitable for adjustable slatted frames or under-beds.

## Washable mattress cover

For many of our mattresses we offer removable, washable covers.

The covers can be divided into two halves using an all-round zip fastener and can therefore be washed in standard washing machines. To provide additional protection for your mattresses in the hotel business, we recommend hygiene protection covers from our range.

#### **Reversible pockets/** flaps

All our mattress models have either reversible pockets or spiral pockets. These allow for easy handling in order to turn your mattresses regularly. Turning the mattresses regularly increases their longevity and prevents bedsores.

#### Mattress topper and protective cover properties

#### Flame retardant (FR)

We also produce selected models in accordance with international standards for fire safety. In accordance with the requirements of BS 7177:2008, we offer you toppers in the Low Hazard and Medium Hazard categories, which meet all requirements in terms of fire safety. In addition, our range includes models tested and certified to the highest Italian fire safety standard 1.IM (UNO I EMME).

#### Impermeable to liquids

The polyurethane coating of our mattress covers and toppers makes them impermeable to liquids, but still breathable.

#### **Cold foam topper**

Cold foam convinces with its high point elasticity, its open-pored structure and its very good lying properties. This allows you to achieve a heavenly sleeping experience for your guests thanks to ideal pressure distribution and perfect support with optimal body adaptation.

#### **Comfort foam topper**

Comfort foam is very flexible and, with the right slat base, offers the body optimum point elasticity and support.

#### Visco foam topper

A thermo-elastic and pressure-relieving foam that adapts precisely to the contours of the body.

## Washable topper or washable topper cover

Many of our toppers are completely washable or have removable, washable covers. The covers can be divided into two halves by means of an all-round zip fastener and can thus also be washed in standard washing machines. For additional protection of your topper in the hotel business, we recommend hygiene protection covers from our range.

#### **Bedding properties**

## Filling power (see graphic)

Bedding with high quality down and feather fillings have excellent elasticity, also known as filling power – with the right care, the filling power lasts for many years; with a higher down content in a filling, the volume of the bed improves – the filling weight remains the same.

#### Fillings

We offer fillings with different properties for our duvets and pillows. Feel free to contact us, we will be happy to advise you.

#### **Individual sizes**

We can manufacture according to your individual wishes. Contact us about your size requirements and we will find a solution for you.

#### **Comfort down duvets**

Each duvet is washable up to 60°C for even more hygiene, is made up with a dimensional allowance for washing and is bordered with an elegant piping band. The individual fields are stitched through to prevent the filling from shifting. We are also happy to manufacture special sizes on request.

## Comfort cassette duvets

Our comfort cassette duvets are washable up to 60°C. All cassette quilts are made up with an allowance for washing and edged with fine piping. Elaborate workmanship with 6 x chambers in standard size together with 1.5 cm inner bars to prevent the filling from shifting. Special sizes are available on request.

#### Refillability

Depending on your needs, you can add or remove filling from some cushion versions. It is also possible to replace the filling completely. We have suitable refill packs in our range.

#### Washability Feather & Down

Our feather and down products are all washable at 60°C - for even more hygiene in your hotel bed. The right care is important: Please use a mild detergent for your bedding and wash your bedding without fabric softener, as this can cause the feathers to clump together. We recommend using the gentle wash cycle for your feather/down bedding. Please always follow the washing instructions on the label.

#### Washability Synthetic

The synthetic fibres are considered easy to care for and, in particular, easy to wash.

However, proper care is important: Please use a mild detergent for your bedding and wash your bedding without fabric softener, as this can damage the fibres. Please always follow the washing instructions on the label.

#### **Duvet warmth levels**

| Summer duvet          | Warmth<br>grade 1 | Light duvet, for<br>warm to very hot<br>room temperatures |
|-----------------------|-------------------|---|
| Transitional<br>duvet | Warmth<br>grade 2 | Lightweight duvet,<br>for warmer room<br>temperatures     |
| Winter duvet          | Warmth<br>grade 4 | Very warm, for cold rooms                                 |
| All-season<br>duvet   | G                 | Medium warmth gra-<br>de, for average room<br>temperature |

#### **Bed linen properties**

#### **Damask or satin**

Both fabrics are made of high-quality yarns. Their difference lies in the weave. Satin fabrics are woven in atlas weave and thus have a particularly dense and smooth surface ranging from matt to high-gloss. Damask often has elegant floral patterns, but also simple elegant patterns.

#### **Hotel closure**

The majority of our bed linen is supplied with a hotel closure. There are no buttons or zips. Bed linen with a hotel closure can be changed more quickly and it is also much easier to handle during laundering and drying.

#### Jersey

Jersey is made of knitted fabric and is therefore particularly soft, elastic and comfortable to wear. Estella bed linen is breathable, crease-free and therefore very easy to care for.

#### Maco cotton

Cotton fibres are particularly long fibres, which makes it possible to spin particularly thin, but also very tear-resistant threads. Our Mako bed linen are particularly smooth and feel pleasantly soft to the touch.

#### **Blended fabrics**

Blended fabrics are made up of different materials and can combine the advantages of different yarns. By mixing cotton and polyester, we get bed linen that is particularly soft and comfortable due to the cotton content, dries faster due to the polyester content and creases less.

#### **CARE TIPS**

- New linen should always be laundered at low temperatures before use. This will preserve the softness of the fabric. White and coloured linen should always be treated separately.
- Do not leave wet items on top of each other. You should always follow the instructions on the care labels. The temperature setting is particularly important.
- Detergent dosage and load volume have a considerable influence on the appearance and life of your laundry. Please follow the manufacturer's recommendations carefully.
- Dried-in stains can often only be removed with aggressive special detergents.

- Therefore, we recommend soaking heavily soiled laundry immediately. Then a simple wash cycle is often all you need.
- Correct ironing keeps the laundry in shape. In addition to sufficient residual moisture, pay attention to the direction of the ironing. This is decisive for the dimensional stability of the products.
- Preferably iron lengthwise, but also at regular intervals cross-wise.

#### **Terry towelling properties**

#### Embroidery

We offer a wide range of ways to advertise your hotel or your company: We manufacture embroideries in terry towelling within a very short time and also offer small quantities. All we need from you is the text, the font together with the exact colour and size specifications.

#### Embroidery

Customised weaving promotes the corporate image of your company! The various possibilities in the terry sector are particularly attractive. Customised weaving is possible from as little as 150 to 200 pieces per size and colour. You can choose between classic name or elaborate logo weaving. We will implement any design for you within the scope of the technical possibilities. At fixed prices - without additional costs

#### Modal

Modal is elastic and keeps its shape. The fibres remain soft and supple even after several machine washes. Modal blends well with cotton and thus increases the water absorption capacity of terry towelling.

#### Safety seam

All our terry towelling has a safety seam on the long sides that are subject to particular wear and tear - for best material cohesion even after many washing cycles!

#### Single yarn terry

Single yarn terry offers the user a firstclass feel, which leaves a pleasant and gentle feeling on the skin. Due to a special wet and boil treatment following weaving, the single yarn terry has a high fabric density and is particularly absorbent and soft.

#### **Twisted terry**

Twisted terry is one of the most absorbent and durable terry fabrics. Thanks to the additional twisting of the yarns during the weaving process, a firm and extremely durable fabric with a high terry effect and nice feel is created. This makes this material ideal for the high demands of use in the professional hotel and catering industry.

#### **CARE TIPS**

- Due to the production process, terry towelling fabric has shrinkage values of approx. 5 - 10 %. We therefore strongly recommend washing and drying new products at low temperatures on a gentle cycle before use.
- When washing terry towelling daily, never overload the washing machine this will lead to premature abrasion at the edges and pulled threads in the pile.
- Overloading in the dryer will not allow the fabric to unfold properly, resulting in a hard, uncomfortable towel.

## FBF bed&more ...

is your trusted partner for exclusive sleeping comfort with proven 40 years of experience in the hotel industry. Our products have been tried and tested millions of times and are used in hotels around the world.

Besides our first-class product selection, we offer our customers an all-round carefree package. Our dedicated team is available to assist you in selecting the perfect sleep comfort solution for your guest and hotel rooms.

We are committed to a number of measures to minimize our environmental footprint and that of our products as part of our long-term commitment to sustainability.

We not only offer high quality products, but also tailor-made services to meet your needs while minimizing the environmental footprint.

## About FBF bed&more

- 204 company history & philosophy
- 206 sustainability at FBF bed&more
- 209 sustainable products
- 212 service & contracting
- 215 general terms & conditions

### Company history and Philosophy

For over four decades, FBF bed&more has been writing success stories as a partner to the national and international hotel industry. As a leading supplier of hotel beds and textiles, we specialise in customised complete solutions for almost every requirement. This is why, to date, over 40,000 listed customers worldwide trust in our box spring beds and bed systems specially developed for the hotel industry. Alongside the special FBF service, they also appreciate the wide range of products, which includes bed systems, mattress protection and hygiene, bedding, bed linen together with a large selection of towelling. All this at the best price-performance ratio!

State-of-the-art manufacturing processes and order-related production enable us to offer a particularly wide standard range and at the same time to respond to individual customer wishes. It does not matter whether we are talking about custom-made beds, mattresses and sofa beds or the processing of the customer's own fabrics. The realisation of weaving and embroidery is also part of our daily business.

The bed plays a central caster in almost every high-quality hotel room as a place of rest and relaxation. Therefore, it should not only be characterised by a first-class appearance and comfort, but also by the best possible comfort for different types of sleep. Every guest deserves an all-round relaxing night's sleep - no matter how small, large, sensitive or strong they may be. The bed systems

Our Company:

and bedding from FBF bed&more offer you the optimal solution in this regard. Evidence of this can be found in our long list of top references. We have customers from small, exclusive and medium-sized hotels, architects, contract furnishers, shipping companies, planners, general contractors, purchasing associations and laundries together with well-known national and international hotel chains, with whom we have been working successfully for many years.

FBF's well-known "special service" includes a range of special services for our customers that you will not find in any other company comparable to FBF. They include the fitting and installation of bed systems and sofa beds, a special leasing concept, fabric samples available free of charge, a high quality of advice and support.

#### Tradition since 1948

High quality standards - strong entrepreneurial spirit:

Josef and Wilfrieda Kühnl, the owners of a contract embroidery business founded in 1948 in the Franconian town of Neustadt an der Aisch, have always had big dreams and the courage to realise them. With just 15 employees, high quality standards and a strong entrepreneurial spirit, they laid the foundation stone of the Fränkische Bettwarenfabrik GmbH (FBF bed&more).

Leading supplier of box spring beds

From the small business of the married couple, "FBF" emerged in 1978 as a manufacturer for commercial use.

FBF bed&more is part of the KÜHNL GROUP GmbH & Co. KG, an owner-managed group of companies with over 75 years of experience in the market for high-quality home textiles, beds and mattresses. More than 300 employees at various locations in Germany and Europe belong to the group of companies.

#### First-class price-performance ratio

FBF bed&more's range inspires with a large-scale, allround textile concept for the hotel and catering industry. From box spring beds, mattresses,

toppers and headboards, bedding, bed linen and towelling, we offer innovative products at first-class value for money.v

## Sustainability at FBF bed&more

#### Climate protection is a complex matter.

Yet it is also a very simple one. It affects us all. For this reason, FBF bed&more and the entire group of companies set out on the path to climate neutrality years ago.

Potential savings in terms of emissions were not only sought in the buildings and the vehicle fleet, but also in internal processes and production. A promising first step, for example, is the photovoltaic system, which covers almost 90 % of the roof area. This means that we already produce more than 100 % of the electricity we need ourselves - and without any emissions.

The battery storage system installed in 2020 also allows more than 50 % of the energy generated to be used directly at the site. During difficult times like these, this is an important building block for the company's success in many respects. A further step is the gradual conversion of the car fleet to hybrid vehicles, including the necessary e-charging stations. These initial steps already point the way to the green future of our group of companies. In areas where we cannot further reduce our emissions, we will try to offset our emissions over the next few years.

The climate forest of the group of companies is another contribution to this. In order to achieve our goal of becoming a climate-neutral company, a 3000 m<sup>2</sup> forest plot near the company's headquarters was reforested. Supported by a generous donation from the group of companies and the help of employees, this joint sustainability project will compensate for approx. 240 tonnes of  $CO_2$  over the next 80 years and thus have a positive impact on our climate.

#### **Climate forest**

In our long term plans, the climate forest is to be a pioneer and trailblazer for the reforestation and preservation of our native forests. To ensure that the resulting forest remains healthy for a long time and provides a future habitat for native animal species, climate-resistant species were also selected for the tree species. A healthy forest is being created that will bind tonnes of  $CO_2$  over many decades, because it is already able to withstand the climate in 100 years.

In addition to  $CO_2$  binding, the climate forest has many other very positive advantages. It serves to filter the air, produce oxygen and at the same time stabilise our climate. It is also a water filter and water reservoir. The newly created recreation area invites visitors to "forest bathing" with loungers and benches and thus creates space for people and animals.

#### FOR A GREEN FUTURE:

- Climate forest in the region
- Photovoltaic system
- Hybrid vehicle fleet
- Sustainable product range

About FBF bed&more 207

## Sustainable product range: Our part in a better future

The hotel industry has realised in recent years that sustainability is not just a buzzword, but an urgent necessity to protect the environment and act responsibly. So hoteliers, manufacturers and service providers are playing a crucial caster in promoting sustainable practices and actively shaping the future of the industry.

Today, many hotels are focusing on environmentally friendly construction projects, green certifications and sustainable products around their guest.

As partners of hoteliers, we see it as our responsibility to actively support the industry on its path to greater sustainability. We pride ourselves on offering a sustainable product range that stands out for its environmentally friendly and sustainable properties. Ranging from mattresses and pillows to duvets and various decorative fabrics, our goal is to help hotels offer their guests not only comfort, but also an environmentally conscious and sustainable experience.

#### About the Seaqual Initiative - Together for Clean Oceans

The SEAQUAL INITIATIVE is a global community of NGOs, fishermen, researchers, scientists, government agencies and private stakeholders. Collectively, they work to clean up the oceans, rivers and estuaries, beaches and coastlines. But that's not all. Certified manufacturers produce a high-tech yarn from this seemingly useless waste that is unparalleled in terms of sustainability and resource consumption: SEA-QUAL® YARN.

FBF bed&more has joined the global community and now offers products made from this particularly sustainable material for sale.

**1. plastic from waters** Fishermen, NGOs and local actors collect plastic waste from oceans, beaches or rivers.

#### **2. recycling waste** SEAQUAL INITIATIVE partners recycle the waste and process parts of the plastic into upcycled marine plastic.

#### 3. SEAQUAL® YARN

Upcycled marine plastic and other recycled plastic is turned into a new yarn: SEAQUAL® YARN.

#### 4. new product

FBF bed&more in cooperation with SEAQUAL INITIATIVE now offers products made of SEAQUAL® YARN. By buying these products, you are making an active contribution to cleaning up the oceans.

#### Your competent partner - also for service

## Proven quality, competent and personal advice

We place great value on tested quality at an attractive price level, tailored to the needs of the accommodation sector. We provide long-term guarantees for many products. Thanks to many years of experience, our qualified team will be happy to advise you - on the phone or at your premises, anywhere in Europe.

#### Services and support

In addition to our products, we offer a wide range of services, such as leasing and hire-purchase options, profitability calculations, warehousing, contracting and assembly of beds and mattresses, disposal of used beds together with a high degree of flexibility and reliability in transport and delivery. We will be happy to prepare an individual offer for you.

#### Weaving and embroidery

Customised embroidery and weaving in bed linen, towels and bathrobes enhances the image of your house. We will be happy to advise you on these effective advertising measures.

#### Free fabric samples

Would you like to see the quality and colouring of individual items in the original? convince yourself? We can send you sample folders free of charge to ensure that the article really does meet your expectations.

#### Special designs according to your wishes

With our flexible production we can adapt many of our products to your wishes - from small series to special sizes to the processing of your own cover fabrics. With larger series, we also supplement our extensive standard programme with individual sleeping and textile systems developed especially for you.

#### Exclusive sleeping comfort

We set new standards for the exclusive sleeping comfort of your guests with carefully selected, high-quality products. We focus on first-class, high-quality and durable materials, innovative technologies and meticulous craftsmanship, regardless of whether it is a standard range or individually developed sleeping and textile systems. Our experienced team will be happy to advise you.

#### 40 years of experience 40,000 customers

Benefit from our 40 years of experience in the hotel market. With more than 40,000 satisfied customers and our globally proven product range, we are passionate about providing you with the best value for money. Offering an allround carefree package, we ensure that your demands for quality, service and sustainability are fulfilled. We put you, the customer, at the centre of everything we do to provide you with a first-class, hassle-free experience.

#### Tried and tested millions of times

We are proud that our products are successfully used in hotels and guest rooms all over the world, providing unparalleled sleeping comfort to countless people every day. Over the years, our products have stood the test of time and have undergone extensive testing to meet the highest standards. You can rest assured that our products will effortlessly withstand the rigours of everyday hotel life and provide your guests with a restful night's sleep, day after day.

## Handling, installation, disposal : no mountain is too high for us to climb

#### More than just a delivery service

Our comprehensive service offering, from warehousing to handling and installation through to disposal of used beds and mattresses leaves nothing to be desired. Whether by van, ship or even helicopter, we reach every destination. Our order-driven production, based on well-trained personnel and the most modern equipment, guarantees the highest quality standards and the shortest possible delivery times, even in the case of custom products. Many of our standard articles are available off-the-shelf at short notice.

#### General terms and conditions
