Weaving

Customised weaving promotes the corporate image of your company! The various possibilities in the terry sector are particularly attractive. Customised weaving is possible from as little as 150 to 200 pieces per size and colour. You can choose between classic name or elaborate logo weaving. We will implement any design for you within the scope of the technical possibilities.

Embroidery

We offer a wide range of ways to advertise your hotel or your company: We manufacture embroideries in terry towelling within a very short time and also offer small quantities. All we need from you is the text, the font together with the exact colour and size specifications.

“[...] for the hospitality sector, this has always been the core issue: “A good night’s sleep, restful sleep, a comfortable, cosy bed”, it is not just about how it looks in the room, but about the effect it has on the guest. Ensuring they wake up rested and refreshed, ready in our case to enjoy Europa-Park and our water park.”

"[...] every bed is different, because I chose the colours to reflect the individual mood of each room. [...] FBF bed&more always listened to my individual wishes for room design and guest comfort."

Carolin Block, Owner & Memory Designer

Fairmont Hotel Vier Jahreszeiten

The Nr. 1 among Germany's 101 best hotels and the epitome of European grand hospitality

„What we truly value about working with FBF is that we are both long-established, mid-sized companies that share the same values. FBF defines itself through the quality of the beds and mattresses it manufactures—along with pillows and duvets—and that commitment to quality is something we live by as well.

The quality is outstanding, the reliability is flawless, and if there is ever a minor issue, it is resolved immediately. We receive a direct and rapid response, which makes working with FBF really enjoyable. That is why we have been partners for decades and why I see this as a classic win-win situation.“

Ingo C. Peters, Managing Director of the Fairmont Hotel Vier Jahreszeiten
